Nahun Ezequiel Martínez Argueta

Fourth-year student of Systems and Computer Networks Engineering at Gerardo Barrios University. I have knowledge in computer networks, robotics, electronics, and web development, using technologies such as JavaScript, HTML, and CSS. I focus on continuous learning and creating efficient technological solutions through the development of practical projects.

EDUCATION

2023 - CURRENTLY

UNIVERSITY GERARDO BARRIOS

Computer Systems and Network Engineering Student

2020-2022

NATIONAL INSTITUTE OF PUERTO EL TRIUNFO

Technical High School Diploma in Automotive Mechanics

EXPERIENCE

2023 - CURRENTLY

Web Development:

- Development of the Veganimo web application as a backend developer, implementing system logic, data management, and core platform functionalities.
  Experience in developing and maintaining web applications using technologies such as HTML, CSS, JavaScript, and databases.

Networking and Configuration:

- Design and configuration of network infrastructure with multiple switches for an educational institution.
  Implementation and organization of a local network to improve connectivity and communication between devices.

ADDITIONAL TRAINING

Certificate:
CCNA: Introduction to Networks
Issue Date:
June 16, 2025

Certificate:
CCNA: Switching, Routing, and Wireless Essentials
Issue Date:
December 16, 2025

SKILLS

Technical Skills

JavaScript, Python, and PHP
Web development (HTML, CSS)
Computer networks
Electronics and robotics

Soft Skills

Analytical thinking
Fast learning
Problem solving
Responsibility
